

# HUMPREYS HILL HOTEL & KISAC SCULPTURE CENTER

## *An artistic alliance for the future*

In the heart of Kenya's Kisii community, the newly erected Humpreys Hill Hotel stands as a symbol of cultural celebration and artistic expression. This boutique hotel, infused with the vibrant spirit of Kisii culture, serves as a platform for showcasing the region's rich heritage. At its core lies a profound partnership with the esteemed Kisac Sculpture Center, renowned for its creativity and craftsmanship. Established in 2003, the Kisac Sculpture Center pioneered the export of Kisii Soapstone handicrafts worldwide, transforming ordinary carvers into skilled artisans. With nearly a hundred talented individuals, the center became a hub for innovative sculpting ideas, expanding into international markets and gaining recognition through prestigious alliances like the National Sculpture Society. The partnership with Humpreys Hill Hotel represents a harmonious blend of art and culture, with the center contributing meticulously crafted sculptures that breathe life into the hotel's walls. These sculptures serve as gateways to Kisii heritage, inviting guests on a journey of cultural exploration.

This partnership transcends commerce, embodying a shared commitment to preserving and celebrating Kisii culture. It exemplifies the transformative power of art and the beauty of cultural exchange. People from all walks of life should look up to this collaboration as a model of cultural stewardship, reminding us of art's ability to unite hearts and celebrate diversity..
